

CAR DEALERSHIPS

HORNSBY MERCEDES

Location:

Pacific Hwy
Waitara NSW

Description:

New vehicle dealership with
showroom & workshop.

Office:

Newcastle

A major redevelopment of "auto alley" on the Pacific Hwy Waitara, has changed the face of one major dealership. That dealership is Hornsby Mercedes, with Williams River Steel being the preferred builder.

Commencing in the latter part of 2009, our contract was to provide a full "turn key" development with the project really taking shape over the last couple of months prior to handover in June 2010.

Primarily designed using structural steel and precast concrete spin up panels, the two front façade areas feature full height glass shopfronts which compliment the overall design of the building perfectly. It also features 3 levels of office/administration and a coffee lounge with a workshop attached to the rear.

Williams River Steel worked closely with Ezzy Architects of Hornsby, who co ordinated the project, which has been flagged by Mercedes as the benchmark for new dealerships throughout the Eastern States of Australia.
